02 What you can do

For your business

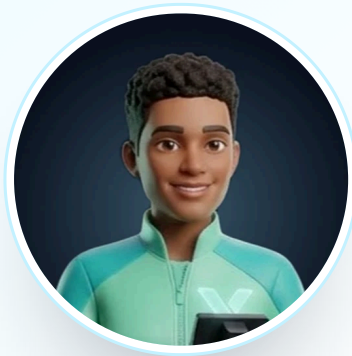

- ◆ Edit your clips with text, music and animated subtitles.
- ◆ Cut a long video into short clips with AI Clips.
- ◆ Export to MP4, with nothing to install.

For your agency and your clients

- ◆ Start from a template and swap in the client's clips.
- ◆ Subtitle your clients' videos in a few minutes.
- ◆ Turn a live or a webinar into clips for social media.

03 Your AI team

Leo

Video maker

Leo starts an editing project from a Montra template, with your texts. You drop your clips in, adjust and export, right in your browser.

ASK IN YOUR OFFICE

“Start an editing project”

“Which template suits a product launch?”

04 Step by step

Your first video

- 1 In your YLC account, tap **My apps**, then **Montra**, or go to montra.ylcnetwork.com.
- 2 Click **New project** and pick the format. Or click **Start from a template**, then **Use**.
- 3 Drop your videos, photos or music, or use the timeline's + button: **Video or photo**, **Text**, **Music**, **Captions**.
- 4 For captions, open **Captions**, pick the language and style, then click **Generate captions**. You can fix every word for free.
- 5 Click **Export**, choose the **Quality** (720p or 1080p), then **Export MP4**. Keep the tab open until **Your video is ready**, then click **Download MP4**.

GOOD TO KNOW

In the editor, **Help** then **Take the tour** starts the guided tour again.
